A place to eat

In Mama Shelter restaurants, **the local Chefs propose a simple, generous and authentic cuisine to create tasty dishes with references to local specialties**. Everything is homemade with love! A place to meet

Settled in these cities that we love, Mama is reaching out to the people of every age and horizon so they can gather, share homemade dishes prepared with love by our Chefs, a cocktail prepared by our barmaids and barmen, or a comfortable bed. Just the pleasure to be here together. Not only that, **Mama also proposes her Ateliers, comfortable and original meeting rooms** so you can be the most creatives, **shops** (and one online) where you can find all of her favorites and partnerships. You can also find **new technologies** including free access to movies and Wifi.

A place to live

The world is moving, tastes are changing, and people are looking for shorter and more original stays. It is from this observation that Mama Shelter was first born in Paris in 2008. **Managed by the Trigano family**, co-founder of the Club Med, Mama Shelter broke the codes of tourism and has emerged as one of the new standard of urban hospitality. After **Paris, Marseille, Lyon, Bordeaux, Los Angeles** and soon **Lille and Toulouse, Mama aims to settle down in large cities worldwide.**

AccorHotels has joined the family by entering Mama Shelter's capital in October 2014 to accelerate the development and help her settle in cities capable of hosting her dreams of generous hospitality, cities just like Mama!

An experience

Whether for her homemade dishes or her shop products and equipment, Mama always tries to find the best with a minimum impact on the planet.

She created with the **brand Absolution** a range of **99% natural** and **20% organic skincare products**: Mama Skin, and also proposes a **100% Arabica terroirs coffee**, mainly from the Salvador and Brazil, it's **Mama's Kiss**.

Among the shop products, you can find **wood or fabric toys without any plastic packaging**, or our partnership with **Veja**, the organic brand from fair trade.

Besides, the rooms are mainly equipped with showers instead of bathtub **in order to respect our earth and to preserve our precious water**.
