A hotel composed exclusively of Suites

Suite Novotel offers only Suites, each measuring 30m square-metre. They are real living quarters and can be arranged to suit the guest's needs: an area for sleeping, for working, or for relaxing. The guest can also stay connected to the outside world thanks to the Suite Box: Internet, telephone to national landlines, videos and music. The Suite Box is **free and unlimited**.

Suite Novotel has launched **a new generation Suite** in response to the changing demands of its guests. This new Suite combines high design and innovation. The new properties in Perpignan, Luxembourg, Malaga, Paris Issy les Moulineaux are all equipped with the new Suite.

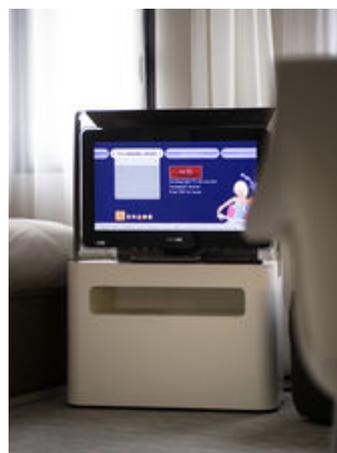

Eat and drink as you like!

At Suite Novotel, guests can dine the way they like, at any time of day or night, thanks to the Boutique Gourmande. They'll find a vast choice of high-end snacks, hot dishes, desserts and drinks, all combining enjoyment and balance. And they are free to choose where they want to eat: in the lobby, in their Suite, or outside the hotel. To get off to a good start, Suite Novotel offers its Good Morning breakfast, which features balanced choices and original recipes developed by a chef and a nutritionist.

An innovation that makes the difference: the Suite Box

All Suite Novotel Suites are equipped with the Suite Box. With it, guests are free to surf the net with high-speed access and make as many phone calls as they want (to landlines in the country) or browse their photos. They also enjoy a wide choice of entertainment options, including videos and music. With the Suite Box, all these services are **free and unlimited**.
