# Pullman: a new in style address in Thailand

The setting is exceptional. Surrounded by tropical hills and overlooking the Andaman Sea, the Pullman Phuket Arcadia Naithon Beach is the Pullman brand's latest jewel in Thailand.

Pullman's fifth hotel in Thailand impresses both by its surroundings and its refined interior. Its design, by Thai artist Supachai Ketkaroonkul, blends the highest international standards with the delicate beauty of Thai architecture. It offers a striking echo of the surrounding landscape, dominated by waterfalls and by Naithon Beach – considered to be one of the most beautiful shorelines on the Phuket's west coast.

In this idyllic setting, the hotel offers **277 rooms and 7 suites** with stunning views of the Andaman Sea – so close you could almost touch it. Reflecting the warm reception provided by its Welcomer teams, the Pullman Phuket Arcadia Naithon Beach also features the best of the brand's **signature services** including the Pullman bed, free Wi-Fi throughout the hotel up to and including the pool area, a Connectivity Lounge, Co-Meeting concept for the MICE market, Nespresso® experience, Vinoteca by Pullman wine list and Pullman Fit & Spa Lounge.

These are all essential features of Pullman's "Work hard, Play hard" philosophy, which aims to ensure that each and every one of its hotels

is a genuine place for living and communicating, where pleasure and performance are not mutually exclusive concepts.

### **Cosmopolitan cuisine**

Proof of this is the catering this new address provides, offering a genuine culinary journey.

Whether it be a poolside cocktail, a hot croissant at any time of day or night or a Pad Thai ... every wish can be accommodated in the welcoming areas designed for business and leisure customers alike. There are **two restaurants** (Elements – serving fusion cuisine that blends Thai and Western traditions; and Vero – an Italian trattoria and wine bar) as well as **four bars** where guests can chill out (The Deli, C Bar, Azur and Float).

### **An open door to a relaxing experience**

Guests who enjoy a work-out or relaxing at the spa will love the Pullman **Fit Lounge and the resort's Dhatri Spa**. This spa is named after the god of "health and tranquillity" and treats guests to a choice of relaxing, revitalizing and rebalancing treatments combining Asian traditions and western beauty care. The Dhatri Spa has three individual massage rooms, a double suite, a beauty parlour and also provides treatments in guests' rooms.

Finally, the Pullman Phuket Arcadia is also the ideal **meeting place**. Its 850 m<sup>2</sup> of meeting space organised over 9 rooms can be used for all types of professional and private functions. These ultra-modern areas (meeting rooms, private dining rooms, a boardroom and a ballroom) and adjoining terraces with breathtaking views of the Andaman Sea can cater for groups of 10 to 600 people, while the 389 m<sup>2</sup> Arcadia Ballroom boasts an almost six-metre-high ceiling. The layout of the hotel has been designed to ensure that meeting rooms and guest rooms are at the heart of the resort.

This new exclusive address in vibrant Phuket brings performance and pleasure closer than ever before.
