

Accor professions guide: Technical manager (m/f)

The job in a few points...

- Be responsible for the technical smooth running and maintenance of the hotel's installations
 - Ensure the safety of people and property, and guarantee a high standard of equipment
- Apply on line for the technical manager positions

This job is doing...

In the most of economic, middle and upscale hotel of the group in the world.

Testimony of Juanita Almonte, Technical Manager, Novotel New York, USA.

"I have been working for ACCOR for almost 6 years. I began working for both Sofitel and Novotel New York hotels in 2004 as Engineering Assistant. I was dividing my time between the two hotels and it was a very rewarding experience. In 2008 I was promoted as Engineering Manager for Novotel Hotel. I am very proud to say I have been part of the Novotel renovations. I have seen guest areas, including guest rooms and also the back of the house, under go great transformations. I enjoy being part of a department which is constantly working on ways to improve and maintain the building."
