ibis Budapest Centrum has been totally renewed to meet travellers expectations!

Budapest, 5 October 2010 – Ibis Budapest Centrum located in the heart of the downtown in Ráday Street is preparing for the next season with a completely renewed interior, exploiting the newest international standards and practical features of the ibis brand, the worldwide reference in the economy industry.

In the completely renewed rooms, the carpets were replaced by parquets, the beds and covers were changed, the duvets are replaced by quilts, LCD televisions and curtains ensuring complete darkness were installed.

Guaranteed quality and services, around the clock, 7 days a week

In the ibis New Generation lobby, which was the first of its kind to be created in Hungary, the guests are informed on the special services when entering the hotel on a dedicated "ibis interface": 24-hour reception, 15-minute satisfaction guarantee (if a request is not fulfilled within fifteen minutes, then the traveller is the chain's guest for one night), breakfast between 4 a.m. and noon, non-stop available snacks and drinks, and internet access.

Breakfast is available during 8 hours in the hotel. It starts with an early bird menu at dawn, continues with an all you can eat smorgasbord, and those waking up late are welcome until noon

Behind the open reception desk located in the central part of the New Generation lobby, two displays inform the guests on the hotel's services and other useful information, and in a separate web corner, free internet access is provided to the guests on two computers. On the high tables called Business Connection Point located in the lobby, sockets complying with the standards of different countries are available for using/charging laptops and other electronic equipment.

New Generation lobby

ibis, innovating for the environment

The hotel continues to pay special attention to environment consciousness. Similarly to the other Hungarian ibis hotels, LED lamps were installed in the rooms during the refurbishment of the hotel, which also possesses ISO 14001 audit, perlators were inserted into the bathroom taps to decrease the strength of the water flow, the liquid soap dispensers of the washbasin and the tub are refillable and comply with ECOLAB requirements, and the waste is collected selectively in the hotel's waste container. The hotel draws the attention of its guests to the importance of environment consciousness in its internal communications.

After the refurbishment of ibis Budapest Centrum, the hotel provides its quality ibis services and an outstanding price-value ratio, and guarantees the complete satisfaction of its guests with renewed interior, as well as with well-trained young and dynamic personnel.

ibis, the worldwide economy hotel brand of the Accor group, offers consistent quality accommodation and services in all its hotels, for the best local value: a well-designed and fully-equipped en-suite bedroom, major hotel services available 24/7 and a wide choice of on-site food and beverage options. The quality of the ibis standard has been recognised by the International Organization for Standardization certification ISO 9001 since 1997. ibis is also the world's first hotel chain to demonstrate its environmental commitment through securing the ISO 14001 certification, which has already been awarded to nearly one third of its hotels.

Established in 1974, ibis is the European leader and one of the first economy hotel chains in the world, with more than 104,000 rooms and 879 hotels in 45 countries, including Budapest in Hungary.
