Suite Novotel, another way of experiencing hotel living

Suite Novotel breaks with traditional hotel concepts and offers an off-beat hotel experience.

The brand invites its clientele of medium-stay guests to experience a different way of hotel living where they can make themselves at home in all of the hotel's living areas.

Suite Novotel hotels are composed exclusively of 30 sq. m. Suites that guests can arrange as they wish to suit different needs at different times: sleeping, working, and relaxing. Here, elegance and usefulness are combined to ensure the well-being and comfort of clients.

Suite Novotel innovates in every area:

- Through the spaces, with hotels made up exclusively of modular 30 sq. m Suites,
- Through the Suite :
 - a corner equipped with a microwave and refrigerator,
 - free wireless internet access,
 - Suite Box, so guests can enjoy free and unlimited multimedia services: telephone calls to national landlines, films, music on demand, etc.

- Through the original food and beverage solutions, so guests can eat what they want, when they want, 24/7, where they want, with the *Boutique Gourmande* located in the hall, and several breakfast options (in the hotel, take-away or served in their Suite).
- Through extra services so clients can enjoy complete freedom and autonomy throughout their stay:
 - the WebCorner on a Mac in the lobby for free Internet access,
 - a fitness room, *In Balance Fitness by Novotel*, available 24/7,
 - a library and press corner,
 - a friendly bar area where clients can relax in the evenings,
